Come Home to NB Power

Are you feeling that coming home for vacation is not long enough to enjoy your family and friends? Do you miss the ocean views and the smell of New Brunswick forests and trails? Have you heard about how rewarding a career at NB Power can be?

NB Power employees work in locations throughout New Brunswick in diversified careers and occupations. Over the next few years, we will be looking for skilled trades' people, power line technicians, power engineers and various professionals.

NB Power salaries and benefits go a long way here as the cost of living is very reasonable. As we strive toward our vision of People at their Best, our human resources practices are touted as being very progressive

- an impressive relocation policy
- an exceptional safety record
- a strong partnership with labour through the IBEW
- an emphasis on employee wellness

The NB Power Group provides the lowest-cost power possible, consistent with safety, reliability and the environment, while providing a return to the Shareholder. The electricity is generated at 15 facilities and delivered via power lines, substations and terminals to more than 360,000 direct and indirect customers within New Brunswick and surrounding areas.

Is it time for you to join or re-join the NB Power family?

Check out our website www.nbpower.com for more information. We are looking forward to seeing you soon!
